University of Louisville, KY, USA

**Information for Authors**

**Types of contribution.** Research articles, review papers and book reviews.

**Process of manuscript submission.** All submissions must be done electronically through our website. Only PDF files that are ready to be printed can be accepted. Go to our website <http://www.amcs.uz.zgora.pl>, select **Submit** and follow the instructions.

**Review process.** All manuscript are sent to at least two independent reviewers to ensure both accuracy and relevance to the journal. The final decision on acceptance will be made by the *Editor-in-Chief*.

**Text.** Typewrite with double space. Headings and subheadings for different sections of the paper should be clearly indicated and numbered using Arabic numerals. The title page should include the name and affiliation of each author, and a full correspondence address, including fax and e-mail, for the contact author. Provide an informative 100- to 250-words **abstract** at the head of the manuscript, and 5–7 **keywords**.

**References.** All publications cited in the text should be included in the list of references following the text of the manuscript. In the text please refer to the author's name and year of publication, e.g. (Pandolfi, 1998; 1999). Up to two authors can be mentioned in text references, e.g. (Burns and King, 1995; Rosenblum and Rovnyak, 1985); more than two authors should be shortened to the first author's name with *et al.*, e.g. (Banks *et al.*, 2000). References should be listed alphabetically at the end of the manuscript and should conform to the examples below. Full names of journals and conference proceedings should be written.

Journals: Banks H.T., del Rosario R.C.H. and Smith R.C. (2000): *Reduced order model feedback control design: Numerical implementation in a thin shell model.* — IEEE Transactions on Automatic Control (*full name*), Vol. 45, No.7, pp. 1312–1324, DOI:10.1109/TAC.2007.906158.

Kaczorek T. (2007): *Positive partial realization problem for linear discrete-time systems.* — International Journal of Applied Mathematics and Computer Science (*full name*), Vol. 17, No. 2, pp. 165–172, DOI: 10.2478/v10006-007-0015-2.

*If the article has a DOI number, the author should include it in the references. The DOI number automatically makes an active link.*

Book: Rosenblum M. and Rovnyak J. (1985): *Hardy Classes and Operator Theory.* — New York: Oxford U.P.

Book chapter: Burns J.A. and King B.B. (1995): *Representation of feedback operators for hyperbolic systems.* In: Computation and Control IV (K.L. Bowers and J. Lund, Eds.). — Boston: Birkhäuser, pp. 57–74.

Proceedings: Pandolfi L. (1999): *Recent results on the Kalman-Popov-Yakubovich problem.* — Proc. Int. Conf. *Mathematics and Its Applications*, Yogyakarta, Indonesia, pp. 47–60.

**Electronic publishing.** In order to accelerate editing and printing, the authors of the accepted manuscript will be required to provide its final version by the Internet (source file). Most word processing formats are accepted but L<sup>A</sup>T<sub>E</sub>X is preferred.

**Voluntary page charge.** Papers selected for publication in *AMCS* are subject to a voluntary *Page Charge*, which will be invoiced through the author to the author's company, institution, or agency. Publication is not dependent on the payment of the voluntary *Page Charge*. 15 reprints and one sample copy of the journal are provided when the paper is published. Additional reprints and journal copies can be ordered from the Editorial Office.
