## *Special section*

<b>Selek I. and Ikonen E.</b> Fundamental limitations of the decay of generalized energy in controlled (discrete-time) nonlinear systems subject to state and input constraints .....	629
<b>Khaksar W., Uddin M.Z. and Torresen J.</b> Multiquery motion planning in uncertain spaces: Incremental adaptive randomized roadmaps .....	641
<b>Flores-Flores J.P. and Martinez-Guerra R.</b> PI observer design for a class of nondifferentially flat systems ..	655
<b>Kurdyukov A.P. and Boichenko V.A.</b> A spectral method of the analysis of linear control systems .....	667
<b>Estrada E., Yu W. and Li X.</b> Stability and transparency of delayed bilateral teleoperation with haptic feedback	681
<b>Aguilar-Ibanez C. and Suarez-Castanon M.S.</b> A trajectory planning based controller to regulate an uncertain 3D overhead crane system .....	693
<b>Solis C., Clempner J. and Poznyak A.</b> Robust extremum seeking for a second order uncertain plant using a sliding mode controller .....	703

## *Regular section*

<b>Hendy A.S. and Macías-Díaz J.E.</b> A conservative scheme with optimal error estimates for a multidimensional space-fractional Gross–Pitaevskii equation .....	713
<b>Sanjuan A., Rotondo D., Nejari F. and Sarrate R.</b> An LMI-based heuristic algorithm for vertex reduction in LPV systems .....	725
<b>Byrski W., Drapała M. and Byrski J.</b> An adaptive identification method based on the modulating functions technique and exact state observers for modeling and simulation of a nonlinear MISO glass melting process	739
<b>Hedjar R. and Bounkhel R.</b> An automatic collision avoidance algorithm for multiple marine surface vehicles	759
<b>Janicka M., Lango M. and Stefanowski J.</b> Using information on class interrelations to improve classification of multiclass imbalanced data: A new resampling algorithm .....	769
<b>Cestnik B.</b> Revisiting the optimal probability estimator from small samples for data mining .....	783
<b>Bohli J.-M., González Vasco M.I. and Steinwandt R.</b> Password-authenticated group key establishment from smooth projective hash functions .....	797
<b>Tuncer T., Dogan S., Tadeusiewicz R. and Pławiak P.</b> Improved reference image encryption methods based on $2^k$ correction in the integer wavelet domain .....	817
