Task: International Journal of Applied Mechanics and Engineering (IJAME)

Type of task: edition of a scientific journal, its internationalization and ensuring open access to the journal via the Internet.

The task is financed under contract no. 634/P-DUN/2019 by the Minister of Science and Higher Education from funds for science dissemination activities.

Scope of the journal: INTERNATIONAL JOURNAL OF APPLIED MECHANICS AND ENGINEERING is an archival journal which aims to publish high quality original papers. These should encompass the best fundamental and applied science with an emphasis on their application to the highest engineering practice. The scope includes all aspects of science and engineering which have relevance to:

- ◆ biomechanics, ◆ magnetohydrodynamics, ◆ plasticity, ◆ thermodynamics,
- ◆ elasticity, ◆ mechatronics, ◆ plates & shells, ◆ tribology,
- ◆ fluid dynamics, ◆ mechanics of structures, ◆ rheology, ◆ vibrations.

This is also reflected in the publication of conference reports, book reviews, editorials, special issues, laboratory reports, news and letters.
