

IJME

International Journal of
APPLIED MECHANICS

AND

ENGINEERING

Ministry of Science
and Higher Education

Republic of Poland

UNIVERSITY
OF ZIELONA GÓRA

Task: International Journal of Applied Mechanics and Engineering (IJAME):

Type of task 1: development of English versions of publications issued

Type of task 2: digitalization of publications and scientific monographs to secure and offer open access via the Internet
financed under the contract 554/P-DUN/2016 by the Ministry of Science and Higher Education with budget resources appropriated for popularization of scientific research

2017

Volume 22

Number 4

ISSN 1734-4492
e-ISSN 2353-9003

University Press
Zielona Góra, Poland

Contents

A. Chakraborty	
Eigen value approach to generalized thermoelastic interactions in an unbounded body with circular cylindrical cavity without energy dissipation	811
K. Das, R.P. Sharma and P.R. Duari	
Hydromagnetic rarefied fluid flow over a wedge in the presence of surface slip and thermal radiation.....	827
M. Galicki	
Kinematically optimal robust control of redundant manipulators.....	839
V. Gnitko, Y. Naumemko and E. Strelnikova	
Low frequency sloshing analysis of cylindrical containers with flat and conical baffles	867
M. Goyal, R. Goyal and R. Bhargava	
FEM simulation of triple diffusive natural convection along inclined plate in porous medium: prescribed surface heat, solute and nanoparticles flux	883
M. Graba	
On the parameters of geometric constraints for cracked plates under tension – three-dimensional problems..	901
R. Grzejda	
Impact of nonlinearity of the contact layer between elements joined in a multi-bolted system on its preload ...	921
A. Khan and R. Solanki	
Initial unsteady free convective flow past an infinite vertical plate with radiation and mass transfer effects....	931
K.K. Pandit, D. Sarma and S.I. Singh	
A study of chemically reactive species and thermal radiation effects on an unsteady MHD free convection flow through a porous medium past a flat plate with ramped wall temperature.....	945
N. Pothanna, P. Aparna and R.S.R. Gorla	
A numerical study of coupled non-linear equations of thermo-viscous fluid flow in cylindrical geometry	965
M. Singh	
On thermal instability of Kuvshiniski fluid with suspended particles saturated in a porous medium in the presence of a magnetic field	981
J. Szafran, K. Juszcyk and M. Kamiński	
Coupled finite volume and finite element method analysis of a complex large-span roof structure	995
A. Walicka	
Basic flows of generalized second grade fluids based on a Sisko model	1019
A. Walicka	
Simple flows of pseudoplastic fluids based on DeHaven model	1035
A. Walicka and P. Jurczak	
Influence of total inertia effects in a thrust curvilinear bearing lubricated with Newtonian lubricants.....	1045
B. Zığta and P.R. Koya	
The effect of MHD on free convection with periodic temperature and concentration in the presence of thermal radiation and chemical reaction.....	1059
<i>Brief note</i>	
A.S. Idowu, E.B. Are and J.A. Gbadeyan	
Vibrational analysis of damped orthotropic rectangular plates with simple support on elastic Winkler foundation subjected to moving loads	1075
<i>Technical note</i>	
A. Alsbary, P. Truszkiewicz, K. Łaskawiec, K. Szymański and Ł. Rojek	
Analysis of energy consumption and possibilities of thermal-modernization in residential buildings in Poland case study: the town of Zielona Góra	1083
Z. Dąbrowski, J. Dziurdź and G. Klekot	
Influence of the mesh geometry evolution on gearbox dynamics during its maintenance.....	1097
M. Dzikuć, M. Dzikuć and K. Łasiński	
Technical and economic aspects of low emission reduction in Poland	1107
Z. Śloderbach	
Evaluation of strains and thicknesses of pipe elbows on the basis of expressions resulting from the EU-directive for the case of large and small deformations	1113
Conference informations.....	1129

INTERNATIONAL JOURNAL OF APPLIED MECHANICS AND ENGINEERING

Editor-in-Chief

Edward Walicki

Department of Mechanics, University of Zielona Góra, ul. Szafrana 2
65-516 Zielona Góra, POLAND; e-mail: E.Walicki@ijame.uz.zgora.pl

Regional Editors

K.R. Rajagopal

Department of Mechanical Engineering, Texas A&M University
College Station, Texas 77843-3123, USA; e-mail: Krajagopal@mengr.tamu.edu

Siu-Lai Chan

Department of Civil and Structural Engineering, The Hong Kong Polytechnic University
Hong Kong, PRC; e-mail: CESLCHAN@polyu.edu.hk

Editorial Board

H.I.Andersson, Trondheim, Norway

R.Bassani, Pisa, Italy

G.Bergeles, Athens, Greece

R.Łędziński, Zielona Góra, Poland

A.Biń, Warszawa, Poland

Y.C.Chen, Houston, USA

T.Chmielniak, Gliwice, Poland

B.S.Dandapat, Calcutta, India

D.Durban, Haifa, Israel

N.El-Kissi, Grenoble, France

S.Wroński, Warszawa, Poland

Q.-S.Zheng, Beijing, PRC

Technical Editor: K.Napieralska

Scope of the journal: INTERNATIONAL JOURNAL OF APPLIED MECHANICS AND ENGINEERING is an archival journal which aims to publish high quality original papers. These should encompass the best fundamental and applied science with an emphasis on their application to the highest engineering practice. The scope includes all aspects of science and engineering which have relevance to:

- ◆ elasticity,
- ◆ mechatronics,
- ◆ gas dynamics,
- ◆ plasticity,
- ◆ plates & shells,
- ◆ rheology,
- ◆ vibrations,
- ◆ hydrodynamics,
- ◆ thermodynamics,
- ◆ mechanics of structures,
- ◆ magnetohydrodynamics,
- ◆ tribology.

This is also reflected in the publication of conference reports, book reviews, editorials, special issues, laboratory reports, news and letters.
