## About

The *International Journal of Applied Mathematics and Computer Science* is a quarterly published jointly by the University of Zielona Góra and the Lubuskie Scientific Society in Zielona Góra, Poland, since 1991. It strives to meet the demand for the presentation of interdisciplinary research concerned with applications of mathematical methods to computer science and engineering.

AMCS publishes high quality original research results in the following areas:  
*mathematical methods in computer science and engineering,*  
*modern control theory and applications,*  
*artificial intelligence methods and their applications,*  
*applied mathematics and mathematical optimization approaches.*

# Notes for Authors

## Requirements in brief

Our basic rules include electronic paper submission and processing, the LaTeX format following a special *AMCS* style for paper final versions, copyright transfer, a voluntary page charge.

## Paper submission

Paper proposals may be submitted only through our on-line submission system as PDF files. The papers will be subject to a full review procedure, and a decision on whether or not to accept the paper will be made based on the reviewers' comments.

## Electronic processing

The authors of accepted papers will be requested to provide the final versions of their work as electronic word processing files in the LaTeX format using our *AMCS* class.

## Paper style

The style of papers to be published in *AMCS* is determined by a special LaTeX class, which is described in detail in our instructions for authors.

## Copyright transfer

All authors must sign the copyright transfer agreement before the article can be published. The agreement allows protecting the copyrighted material, without affecting the authors' proprietary rights.

## Page charge

Papers published in *AMCS* are subject to a voluntary page charge, which will be invoiced through the author to the author's institution. Publication, however, is not dependent on the payment of this charge.

## Provisions

One sample copy of the journal and the electronic version of the paper are provided for authors once the issue has been published.

## Details, submission and downloads

The complete guide for authors can be found on our website at [www.amcs.uz.zgora.pl](http://www.amcs.uz.zgora.pl).

## AIMS & SCOPE

The aim of the *International Journal of Applied Mathematics and Computer Science (AMCS)* is to publish original research results in various areas related to computer science and mathematics. The scope of topics covered by *AMCS* is extensive and includes the following:

- *Control systems*: optimal control, distributed parameter systems, system identification, adaptive and robust control, non-linear systems, multi-dimensional systems.
- *Mathematical and numerical modelling*: ordinary and partial differential equations, numerical algorithms, simulation, applications.
- *Artificial intelligence*: artificial neural networks, fuzzy and expert systems, rough sets theory, evolutionary and genetic algorithms, search methods, cellular automata, soft computing, applications.
- *Knowledge processing*: knowledge mining and acquisition, knowledge representation, expert systems, data mining, data basis, applications.
- *Fault detection, fault analysis and diagnostics*: model-based systems, soft computing techniques, pattern recognition, state and parameter estimation, signal processing, applications.
- *Optimization*: mathematical optimization techniques, global optimization, evolutionary and genetic algorithms.
- *Robotics*: modelling and simulation, optimal control, controllability, parameter and state estimation, optimal trajectory planning, singularities.

The editors welcome proposals for exchange between similar journals. Also, all persons interested in bringing out special issues of *AMCS* are encouraged to contact the Editor-in-Chief. Such issues may be published on any important and timely subject within the scope of the journal.

The publication of *AMCS* is financially supported by the Ministry of Science and Higher Education in Poland and the University of Zielona Góra.
