

IJME

International Journal of

APPLIED MECHANICS

AND

ENGINEERING

Ministry of Science
and Higher Education

Republic of Poland

UNIVERSITY
OF ZIELONA GÓRA

Task: International Journal of Applied Mechanics and Engineering (IJAME):

Type of task 1: development of English versions of publications issued

Type of task 2: digitalization of publications and scientific monographs to secure and offer open access via the Internet
financed under the contract 554/P-DUN/2016 by the Ministry of Science and Higher Education with budget resources appropriated for popularization of scientific research

2017

Volume 22

Number 3

ISSN 1734-4492

e-ISSN 2353-9003

University Press
Zielona Góra, Poland

Contents

A. Alsabry, V.I. Nikitsin, V.A. Kofanow and B. Backiel-Brzozowska Evaluation of the influence of wind-driven rain on moisture in cellular concrete wall boards	509
A. Daşdemir Effect of initial stress on the dynamic response of a multi-layered plate-strip subjected to an arbitrary inclined time-harmonic force	521
M.N. Firoza, N.C. Roy and Md. A. Hossain Conjugate heat and mass transfer on fluctuating mixed convection flow along a vertical wedge with thermal radiation	539
B.K. Jha and B. Aina Effect of induced magnetic field on MHD mixed convection flow in vertical microchannel	567
R. Kumar, P. Kaushal and R. Sharma Axisymmetric vibration for micropolar porous thermoelastic circular plate	583
J. Mańkowski and J. Lipnicki Digital materials – evaluation of the possibilities of using selected hyperelastic models to describe constitutive relations.....	601
R.S. Raju, B.M. Reddy, M.M. Rashidi and R.S.R. Gorla Numerical solutions by EFGM of MHD convective fluid flow past a vertical plate immersed in a porous medium in the presence of cross diffusion effects via Biot number and convective boundary condition	613
B.K. Sharma, V. Tailor and M. Goyal Role of slip velocity in a magneto-micropolar fluid flow from a radiative surface with variable permeability: a numerical study.....	637
K.A. Vakilabadi, H. Moayeri and H. Ghassemi A numerical simulation for prediction of infrared radiation emitted from plain surfaces with different geometries	653
P.H. Veena, B. Suresh, V.K. Pravin and A.M. Goud Non-Newtonian momentum transfer past an isothermal stretching sheet with applied suction	665
A. Walicka and J. Falicki Reynolds number effects in the flow of a Vočadlo electrorheological fluid in a curved gap.....	675
A. Walicka, P. Jurczak and J. Falicki Curvilinear squeeze film bearing lubricated with a DeHaven fluid or with similar fluids	697
A. Walicka, E. Walicki, P. Jurczak and J. Falicki Influence of wall porosity and surfaces roughness on the steady performance of an externally pressurized hydrostatic conical bearing lubricated by a Rabinowitsch fluid.....	717
<i>Brief note</i>	
P. Frankovský, L. Dominik, A. Gmíterko, I. Virgala, P. Kuryło and O. Perminova Modeling of two-wheeled self-balancing robot driven by DC gearmotors	739
M. Janus-Michalska Study on the size effect of auxetic cellular materials	749
A. Walicka, P. Jurczak and J. Falicki Inertia and couple-stress effects in a curvilinear thrust hydrostatic bearing.....	759
J. Zapłata Measurements of temperature of CNC machine tool ball screw utilising IR method	769
<i>Technical note</i>	
J. Jersák and S. Simon Influence of cooling lubricants on the surface roughness and energy efficiency of the cutting machine tools.....	779
Mohammad Reyaz Ur Rahim, S. Akhtar and P.K. Bharti Comparative analysis of buckling load of circular and corrugated tubes by utilizing key performance indicators	789
Erratum	799
Conference informations.....	801

INTERNATIONAL JOURNAL OF APPLIED MECHANICS AND ENGINEERING

Editor-in-Chief

Edward Walicki

Department of Mechanics, University of Zielona Góra, ul. Szafrana 2
65-516 Zielona Góra, POLAND; e-mail: E.Walicki@ijame.uz.zgora.pl

Regional Editors

K.R. Rajagopal

Department of Mechanical Engineering, Texas A&M University
College Station, Texas 77843-3123, USA; e-mail: Krajagopal@mengr.tamu.edu

Siu-Lai Chan

Department of Civil and Structural Engineering, The Hong Kong Polytechnic University
Hong Kong, PRC; e-mail: CESLCHAN@polyu.edu.hk

Editorial Board

H.I.Andersson, Trondheim, Norway

R.Bassani, Pisa, Italy

G.Bergeles, Athens, Greece

R.Będziński, Zielona Góra, Poland

A.Biń, Warszawa, Poland

Y.C.Chen, Houston, USA

Technical Editor: K.Napieralska

Scope of the journal: INTERNATIONAL JOURNAL OF APPLIED MECHANICS AND ENGINEERING is an archival journal which aims to publish high quality original papers. These should encompass the best fundamental and applied science with an emphasis on their application to the highest engineering practice. The scope includes all aspects of science and engineering which have relevance to:

- ◆ elasticity,
- ◆ plasticity,
- ◆ vibrations,
- ◆ mechanics of structures,
- ◆ mechatronics,
- ◆ plates & shells,
- ◆ hydrodynamics,
- ◆ magnetohydrodynamics,
- ◆ gas dynamics,
- ◆ rheology,
- ◆ thermodynamics,
- ◆ tribology.

This is also reflected in the publication of conference reports, book reviews, editorials, special issues, laboratory reports, news and letters.
